Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 06 March 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-12 is/are pending in the application.

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6, 8-10 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In regards to claim 1, the limitation “bite” renders the claim indefinite.

In regards to claim 1, the limitation “has been lost” renders the claim indefinite.

In regards to claim 3, the limitation “super-strong thin rope” renders the claim indefinite.

In regards to claim 5, the limitation “safe to use even in exceptional conditions” renders the claim indefinite.

In regards to claim 6, the limitation “bite into it” renders the claim indefinite.

In regards to claim 8, the limitation “bite” renders the claim indefinite.

In regards to claim 10, the limitation “bite” renders the claim indefinite.

In regards to claim 10, the limitation “an insert” renders the claim indefinite. It is not understood if the insert being implanted under the coating on the traction sheave is in addition to, or further defining, the material under the coating of claim 6.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3654

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 and 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Bruns (US 3,279,762).

An elevator comprising a hoisting rope 31 set having hoisting ropes of a substantially round cross-section, a counterweight and an elevator car suspended from the hoisting ropes and at least one pulley provided with rope grooves, the at least one rope pulley 11 being a traction sheave coated with a material 21 increasing the coefficient of friction, the traction sheave being driven by a drive machine to move the hoisting rope set, at least the traction sheave forms together with the hoisting rope set a material pair 21, 35 that allows the hoisting rope to bite into the traction sheave after the coating on the surface of the traction sheave has been lost.

In regards to claim 3, Bruns discloses the rope having a diameter less than 8 mm (col. 4, line 8).

In regards to claim 6 and 10, Bruns discloses a material 21 under the at least coating 35.

In regards to claim 8 and 9, Bruns discloses traction sheave groove having a V-shape (Fig. 4).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3654

Claim 12 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bruns in view of Piech et al. (US 6,267,205).

Piech teaches an elevator rope having a diameter between 3-5 mm (Col. 5 line 11).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the rope of Bruns to include a rope having a diameter between 3-5mm as suggested by Piech, to reduce wear.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
